SAI MANI PAIDI

risenmusic2@gmail.com
+91 9182281460

Career Objective

Detail-oriented Computer Science graduate with a strong foundation in Full Stack Development, programming, and problem-solving. Seeking an entry-level Full Stack Developer role to design, develop, and optimize scalable web applications. Eager to contribute to innovative projects, continuously enhance technical skills, and deliver high-quality solutions within a collaborative team environment.

EXPERIENCE

6 months workedasfreelancerandtrainer in happy minds

EDUCATION

NRIIT , AGIRIPALLI **2021-2025**
B.Tech :Computer Science
CGPA 9.4
SRI CHAITANYA JUNIOR C0LLEGE , **2019 - 2021**
VIJAYAWADA
MPC
Percentage : 93%
GAYATRI VIDYALAYAM, **Year Passing: 2019**
VijayawadaSSC:BoardofSecondaryEducation , Andhra Pradesh
GPA: 10

SKILLS

•Advanced: Java, python, react, nextjs, advanced java, sql
•Medium:Machine learning,Artificial intelligence
•TOOLS : Visual Studio Code , Eclipse , Github , Canva

PROJECT EXPERIENCE.

https://drive.google.com/drive/folders/1uKccdTLqNUXNgjVzNvSfqKajvoF_zVal?usp=sharing

Hello Doctor

- Developed a healthcare web application that provides **medicine recommendations based on the disease registered by the user**, improving accessibility to basic medical guidance.
- Implemented a **dosage calculation system** that determines appropriate medicine dosage for both **children and adults**, ensuring age-specific safety considerations.
- Designed a structured disease-to-medicine mapping to help users **quickly identify suitable treatments** based on their inputs.
- Included **health tips and food recommendations** for each disease to promote better recovery and overall well-being.
- Focused on **user-friendly design and clarity**, making medical information easy to understand for non-technical users.

Mr. Mani

- Developed a **voice-controlled assistant** capable of understanding user voice commands and responding through speech output.
- Implemented features to **open and manage computer applications** based on spoken commands, improving hands-free system interaction.
- Integrated **speech recognition and text-to-speech functionalities** to enable natural two-way communication with users.
- Designed command-based automation to perform basic system tasks, enhancing productivity and user convenience.
- Focused on **accuracy, responsiveness, and usability**, ensuring smooth command execution and real-time feedback.

BRAIN STROKDETECTION

- Developed a **machine learning–based stroke detection system** to predict the likelihood of brain stroke using patient health data.
- Performed **data preprocessing and feature selection** to improve model accuracy and reliability.
- Trained and evaluated multiple ML algorithms to identify the most effective prediction model.
- Designed the system to assist in **early diagnosis and risk assessment**, supporting preventive healthcare decisions.
- Gained hands-on experience in **medical data analysis, ML modeling, and performance evaluation**.

Machine Learning :

SEARCH ENGINE,SOUND CONTROLLER
HOUSE PRICE PREDICTION
FACE EMOTION RECOGNITION

AN IOS RESTUARANT MANAGEMENT APP

Itis aniOS app developed inswift language by the help of the cursor, it manages the customer and orders using ints own database and can be used by the iOS users

CODING PLATFROMS

Hackerrank : python - STAR 5 star
Hackerrank : SQL. - STAR 5 star

WORKSHOPS

- •emergingtrends using artificial intelligence and machine learning in python conducted in nriit
- •WAD workshop for connection of databases
- Data visualisation and analytics conducted in college
- Java and oops in realtime for android development
- Using mathematical algorithms for creating models
- Fundamental approaches for using apis and git

CERTIFICATIONS

- java full stack certification
- Java full stack certified trainer in Accenture and nasscom
- Gold loan certification by the Bajaj
- Data visualisation certification of tata
- IBM certified in generative Ai
- College hackathon winning certification in best web app development
- Certified in sql, python, java in hacker rank
- Honors in the computer data science
- Big data certification in NPTEL
- Certified in publishing thebrain stroke project in international conference held in nriit

INTERNSHIPS

•Full StackDevelopment–virtual
•React -virtual
•Data visualisation
•Data science and machine learning

Achievements

- Conducted a 7 daypython full stack in Bangalore
- Conducted a 2 months java full stack course in ap skill development
- Conducted workshop for 1000+ students on generative AI by corresponding partners with
- nasscom,IBM,Happy Minds for Skill development
- Won college level competition
- Won intra college level hackathon
  Awarded for being the University topper
